BLUBOX launch in the Middle East at Middle East Mobility and Broadband Summit in DUBAI

BLUBOX© (www.blubox.com) a leading innovator in digital image compression and optimization is launching its ground-breaking BLUBOX software at the Middle East Mobility and Broadband Summit (www.memobilitysummit.com) on 13th and 14th September at THE EMIRATES TOWER HOTEL in DUBAI.

This event will be the forum for the first public viewing of BLUBOX in the Middle EAST region. BLUBOX is essential for people who send, store or share digital photos. BLUBOX is an essential utility for protecting, compressing and sharing your digital photos. BLUBOX makes it possible to send more than 20 times as many digital images. BLUBOX overcomes the limits and restrictions on email attachments when using Hotmail® Yahoo® or Gmail® email accounts. Using unique compression technology dramatically reduces digital photo sizes.

BLUBOX supports over 480 digital image file formats .A key feature is the ability to view, print and share hiRes digital photos from within your BLUBOX. Using 256-bit encryption to password protect your 'Boxes' BLUBOX guarantees that your photos remain secure and protected at all times. A wonderful solution for handling image files.
